

STUNNING PLOT KOKKINO CHORIO

This 2000 M² plot has terrific sea views and a permit / building permission for 2 large 100M² stone houses.

A bargain at E105,000

The breathtaking views from this plot — sat at the foot of Drapanos hill—are safe forever because of the sloping land in front.

A house built on this plot will face right down Souda bay—where the sun sets in the evening. Over to the left are the mountains.

The owner has a building permit for two properties on this plot and this permit will be renewed until 2015 as part of the sale. This plot would make a great investment—as well as the location for a beautiful home.
