SUMMARY:

This single level property was completed by an excellent local builder in 2007. The villa is situated on a large private plot accessed through gates on to a driveway and covered parking. A further gateway leads to the private pool with sun terraces, vine covered seating areas, landscaped gardens and outdoor BBQ - plus storage areas and tool sheds.

Steps lead from here to the large basement and utility area which has masses of storage space, WC and areas for the heating boiler and tanks.

From the parking area the porch leads into the large, light and airy open plan living area. An archway separates the kitchen and dining area. The large front patio doors provide access to the covered seating area outside as well as offering stunning views from inside and out. Steps lead from here to the pool and gardens

The fully fitted kitchen equipped with all necessary appliances, has a lovely 'Rustic' feel and connects to the attractive dining area.

The well thought out layout has one double bedroom and a large bathroom with walk in shower to one side of the property - and from the other side of the living space, there are a further 2 double bedrooms and a shared bathroom with full bath and shower. All bedrooms have patio doors leading to external terraces and balconies.

The house is currently a full time home and is also ideal as a spacious holiday home — it also has the potential for a successful holiday rental.
